

IMPORTANT!

Please start your artwork on a separate layer above or below this one. The template layer should remain locked.

The **magenta** color represents area that will drop out to silver unless a white flood is otherwise specified.

Before sending us your completed artwork, please make sure to omit or hide the inner and outer circles with only the center cross (+) visible so we can re-position it later. Your artwork should cover the circle as illustrated by the square image shown above.

Create a separate layer for your type. This enables you to create a copy that can be rasterized (if working in Photoshop) or converted to an outline (if working in Illustrator) so that all fonts in your project will remain intact.
